Fires of Incendiary Origin Occur at Goldfield.

Anarchistic Work Is Charged to Workers' Band.

Refusal to Hire Union Help Incites Firebugs.

(BY DIRECT WIRE TO THE TIMES.)

GOLDFIELD (Nev.) June 25.—(Exclusive Dispatch.) The remnants of the Industrial Workers of the World in Goldfield, under the guise of a Western Federation of Miners, has made fruitless attempts to force the mine owners to join the Western Federation and the employers to discharge those who refused.

Following their disappointments have come attempts to burn two big dance halls, whose proprietors declined to succumb to the demands, and it is the general opinion that the incendiaries were of the Industrial Workers' band. Goldfield is watching closely the fight at Denver between the St. John and the Mahoney forces. The St. John is familiar with the facts know St. John to be a traitor, and an unsafe man in any community. He is now awaiting trial for conspiracy in the murder of John Olive, and while under that he was named by the Industrial Workers as a delegate to lead the fight against Mahoney, acting president of the Western Federation.

The case against the Slavonian high graders, who stole ten sacks of rich ore from the Goldfield Consolidated mine has been dismissed. The ore was recovered. Senator George H. Nixon, at the head of the Consolidated mine, in Goldfield. He says the company never looked in finer physical form, and that his merchandise, the Mahoney Red Top, Combination, Laguna, Jumbo and Goldfield mines, are richer than ever before. He is not worrying about the attacks upon him on the dividend account, and he asserts that in due time dividends will be paid to a generous and steady basis.

The first prize to be paid the winners of the rock drilling contest on the Fourth is \$100.

CRISIS IS REACHED.

Socialists Are Fighting for Control of the Western Federation of Miners.

(BY THE ASSOCIATED PRESS—A.M.)

DENVER, June 25.—The crisis in the fight against Acting President C. E. Mahoney of the Western Federation of Miners was reached today when the clause of his report in regard to the Industrial Workers of the World was taken up in the federal convention. Vincent St. John of Goldfield, Nev., led the attack upon the acting president. It is conceded that the fight in an incident in the struggle for control of the federation by the Socialist party.

Acting President Mahoney recommended that the federation should not side with either the Industrial Workers, and this position was sustained by the majority of the committee which considered his report. The chair, in announcing the question before the convention, said the final vote on the adoption or rejection of the president's report will decide whether the federation will remain with the Industrial Workers of the World or will withdraw and form a great industrial union.

In the discussion of the matter today St. John upheld the use of this weapon to gain possession of the records of the Industrial Workers of the World, after Mahoney and others had taken charge of the machinery of the organization. St. John charged that Mahoney stopped at nothing to gain control of the Industrial Workers and freeze out the Socialists. He said Mahoney employed thugs and even an expert safe cracker to get possession of the records of the Industrial Workers.

Acting President Mahoney and Acting Secretary Kirwan have the support of President Charles H. Moyer in this fight. President Moyer wrote the following letter last November, and he has not since indicated a change of views:

"I have studied carefully the Industrial Workers of the World convention reports and, after giving the same due consideration, cannot but endorse the position taken by your acting president and secretary-treasurer."

WHITE WINGS QUIT.

STREET CLEANERS ON STRIKE.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, June 25.—As a protest against the action of the department officials in laying off their white-collar workers off, 250 employees of the street-cleaning department in Manhattan and Bronx boroughs went on strike today. The men are cart-drivers, sweepers and tumblers. It has been the custom in the street-cleaning department to cut the regular working force during the summer months. Under this system some men who have been regularly employed through the winter at \$1.50 a day are put on the extra list and are allowed \$1.87 a day when they work. The strikers want all the men retained at the regular rate of wages.

JURIST WOULD DIE.

Superior Judge Hubbard of San Francisco Attempts to Commit Suicide.

(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, June 25.—Overcome with grief and humiliation at the drastic action of the Bar Association in recommending that he be impeached if he did not immediately resign, Superior Judge J. C. B. Hubbard tried to take his own life this morning in his chambers at the Temple Hotel.

He was saved from death, with the cold barrel of a revolver pressed against his temple and his finger twitching on the trigger. The gun was taken from him by a representative of an evening newspaper. When the gun was taken away from him, Judge Hubbard sank down, again in tears. He declared that life was not worth while after the shame which had been laid at his door.

The reporter, still keeping the revolver, hurried away to get some of the judge's friends together, so that he might be taken home.

KING CARLOS OF PORTUGAL.

DESPOT'S ACTS SHAKE PORTUGAL'S THRONE.

(BY THE ASSOCIATED PRESS—A.M.)

LONDON, June 25.—A correspondent of the Tribune says in a letter mailed from Lisbon June 19, that King Carlos's throne is in imminent danger of being swept away by the rush of a great democratic wave, swollen suddenly by dangerous propositions by the act of despotism which he permitted on May 1.

The people do not forget the report that last year the King condemned Premier Ribeiro's attempt to dissolve the republic, and they contrast this attitude toward a conservative Premier with the curious, illogical license he has given to Premier Franco.

The general feeling of the country is one of advanced liberalism and a repudiation of autocratic bungling can have only one result today in Portugal, the deposition of the King and the establishment of a republic.

The whole reign of Carlos I, who ascended the throne in 1889, has been marked by serious colonial, financial, social and political trouble. The month following his accession witnessed the successful revolution of the republic, and the following year a rupture with Great Britain seemed likely in regard to Portuguese East Africa.

OPERATORS LOAF, BUT KEYS WORK.

TELEGRAPH CONDITIONS BEST SINCE STRIKE BEGAN.

Companies Handle Increased Volume of Business Without Delay, and Add to Number of Employees.

Lines Sever Finally All Agreements With Unionites.

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, June 25.—"Conditions in our office are better today than at any time since the strike began," said Superintendent A. H. May of the Western Union Telegraph Company, who is handling an increased volume of business, and has added to the number of operators.

The outlook is very encouraging. The general situation remains unchanged, with everything peaceful around the main offices of the companies.

The formal notice of the Western Union Telegraph Company to their striking operators to return to work yesterday was ignored by the refusal of the men to return except finally the bond heretofore existing.

Superintendent May of the Western Union declared that his company was engaging men, but would not say how many. He said they were coming from all directions and that normal conditions would prevail soon.

The officials of both companies claim they are within a half hour of their work all the time. The government business was being handled, said Superintendent Storer, without any delay at all.

Although messages are being handled with reasonable promptness so far, the companies refuse to take their operators back until the strike is over, owing to the fear of interference with the wires or delays in the East.

A bulletin issued by the Western Union committee of the telegraphers' headquarters tonight said:

"As an evidence of the inability of the Western Union to handle the business offered by the public they have notified customers to use the telephone wherever possible."

"A report reached headquarters today that 2000 telegrams had 'disappeared' from the Liverpool division of the operating room of the Western Union office in Chicago. This would indicate that business was being handled from Chicago."

"The strikers discovered today that public business was being handled over private wires. President Storer notified the brokerage firms who have permitted outsiders to use their wires for public business that unless the practice was stopped at once their operators would become involved in the strike."

"The Southern Pacific officials have discharged several operators at outside points. The Western Union, through the Office of the Western Union, that they had interfered with the working of Western Union wires."

"The Commercial Telegraphers' Union of America and the Order of Railroad Telegraphers have a working agreement. Should the discrimination against the railroad operators on competition of the Western Union continue there is grave danger of the Southern Pacific operators becoming involved in the strike."

OAKLAND, June 25.—In a letter written to Clarence Mackay, president of the Postal Telegraph Company, President Small of the Commercial

The crown is hereditary both in the male and female line, but with preference of the male. The Constitution recognizes four powers in the state—the legislative, executive, judicial and moderating. The last, which is equivalent to the royal prerogative, is vested in the sovereign.

The peers are nominated by the sovereign, who also nominates the president and vice-president of the chamber. The peerage is hereditary in the direct line but the law of 1885 provided for the gradual abolition of hereditary peerages.

The revenue of the kingdom now amounts to about \$5,000,000. For a long time it was exceeded by the expenditure. The public debt amounts to nearly \$60,000,000.

The national possessions of Portugal consist of—In Asia—Goa, Daman and Diu, all in India, Macao, and possessions in the Indian Archipelago, lying together an area estimated at 700 square miles, and a population estimated at 500,000.

In Africa, Portugal rules over Cape Verde, St. Thomas, and Prince's Islands, Bissagos, Guinea, Angola and Portuguese East Africa, with an aggregate area of 2,838 square miles and an estimated population of 14,000,000. A large part of the Portuguese possessions in Africa, however, are only nominally under their rule.

Telegraphers' Union of America outlined the grievances of the striking operators. The purpose of Small's letter is as follows:

"For many years the telegraphers witness the continued retrogression of their craft. They saw their expenses increase and the purchasing power of their wages decrease, while the conditions of employment were improved."

"The telegraphers' union places the operating rooms were overcrowded and badly ventilated and the necessary relief conveniences were lacking. Sufficient telegraphers were not employed to do the work of the men to work the day and night shifts, and at the same time their hours of employment lengthened."

"Nine to twelve hours of service was required from the telegraphers, and it appeared to be the policy of the company to profit through the backs of the men to work the day and night shifts, and at the same time their hours of employment lengthened."

"The telegraphers' union places the operating rooms were overcrowded and badly ventilated and the necessary relief conveniences were lacking. Sufficient telegraphers were not employed to do the work of the men to work the day and night shifts, and at the same time their hours of employment lengthened."

"On September 28, last, a certain set of rules and regulations were agreed to by the general superintendent of your company at Chicago, after several conferences with the committee of our telegraphers, who represented over private wires. The purpose of the rules referred to was to improve the working conditions and stop petty discriminations against the employees of your company."

"The very day the rules and regulations were promulgated, they have been persistently evaded, violated and broken, and the company's representatives in Chicago."

MAY CALL MAGNATES.

Judge Landis of the United States District Court tomorrow will decide whether he will issue a Federal bench warrant for John D. Rockefeller and H. H. Rogers, calling them before him in person to discuss the inner workings of the Standard Oil Company of New Jersey. The defense will probably contest the action of the court in any event. The decision of the court rests on the action to be taken by Attorney John S. Miller and other representatives of the Standard Oil Company, when they are called on to answer the questions recently propounded by the court.

CATCHES BRIDE WITH WARRANT.

CLEVER RUDE ADOPTED BY AN IOWA YOUTH.

Has Sweetheart Arrested on Charge of Disturbing Peace and While Guardian Who Opposed Wedding Searches for Bondsmen, Justice Performs Ceremony.

(BY DIRECT WIRE TO THE TIMES.)

DES MOINES (Iowa) June 25.—(Exclusive Dispatch.) Unable to win either speaking or marrying license of Eva Shook, Wilson L. Webster, a thirty-year-old mechanic, conceived the idea of filing charges of disturbing the peace against the girl he loved.

Accordingly, he was brought before the justice, F. T. Vanliever. She was accompanied by her guardian, Job Weis, who has bitterly opposed Webster's attentions to the girl. Weis led to hunt a bondsman for Miss Shook, when Webster slipped in a side door, dismissed the charges, produced a marriage license, and the wedding ceremony was performed by the same magistrate who had previously issued the warrants. Two minutes later Weis returned, and was introduced to the bride and groom. Too mad to speak, he rushed from the room. The bride declared she was 18, and that she had a right to marry the man she loved.

INDIAN GIRLS AUCTIONED.

VANCOUVER, June 25.—At an Indian auction held at Alert Bay, participated in by 2000 Indians yesterday, an Indian girl, 9 years old, tall for her age and unusually pretty, sold for \$1000.

The successful bidder outbid a young brave 20 years old, who greatly desired the girl.

Indian girls of tender age were sold to chiefs of the neighboring islands. Two maidens of the Timponeans brought good prices, the wealthy Indians bidding them in.

CATCHES FISH, LOSSES MOTHER.

(BY DIRECT WIRE TO THE TIMES.)

MISHAWAKA (Ind.) June 25.—(Exclusive Dispatch.) Clinging unconsciously to an overturned rowboat in the St. Joseph River and bearing in his arms the dead body of his mother, while his little son sat upon the bottom of the boat and shouted in terror for aid, Joseph Bowers was rescued from drowning today and is now lying at his home in a precarious condition. The accident which cost the life of Mrs. Leah Bowers, a wealthy resident of Zion City, Ill., who was visiting her son here, resulted when the little boy caught an enormous pickerel. In the excitement attendant upon landing the fish, the boat was overturned.

RIOT OVER RISE IN MEAT.

(BY DIRECT WIRE TO THE TIMES.)

MILWAUKEE (Wis.) June 25.—(Exclusive Dispatch.) A dozen Kosher butchers have increased the price of meat here, with the result that there is much disorder in the Milwaukee ghetto. Two mass meetings have been held by people who refused to pay the new price, a boycott has been established, and the situation is becoming more and more serious.

WAR IS BREWING.

(Continued from First Page.)

His instructions are said to be to obtain definite guarantees that Mexico and the United States will not interfere with the event that President Zelaya attempts to conquer first Salvador and then Guatemala, to overturn the existing administrations in those republics and to carry out his plan for a Central American union.

ZELAYA NEEDS MONEY.

In order to accomplish his object, Zelaya will require more money than he now has in sight. He believes the time of pacification might require five years, and he would be minor out-breaks until he was able to show that he was the master of the situation. Señor Gamboa would like to get arms and ships on credit.

The impression here is that Zelaya will have a hard time in conquering Salvador and Guatemala, especially as the latter is believed to be an alliance for offense and defense between the two. Passengers who arrived this week at Salina Bay from Central American ports say they heard at Acapulca that the troops of Zelaya, although it had not yet begun.

Gen. Elizardo Maceo, a son of the late Gen. José Maceo, went on the steamer from Acapulca to San José. He informed persons with whom he came in contact that he was returning from a special mission and that President Cabrera had entered into a formal agreement to support each other's interests.

ORDERS CENSUS OF OKLAHOMA.

President Would Know How Population Is Divided.

Advised That the Democrats Have Gerrymandered.

Constitution Makers May Have to Modify Work.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, June 23.—[Exclusive Dispatch.] Evidence strongly indicating that the President is preparing to turn down the Oklahoma Constitution if it is ratified by the people of the State, was furnished at the Department of Justice today in the shape of a statement announcing a special census of the State.

The statement reads: "Upon the advice of the Attorney General, the President has instructed the Secretary of Commerce and Labor to have the Census Bureau make a special enumeration of the inhabitants of the proposed State of Oklahoma, including both the present Territory of Oklahoma and Indian Territory and determine the population of the proposed State and its distribution among the several Territorial subdivisions into which the State will be divided, should the Constitution, confirmed by the convention lately sitting there, be approved at the polls."

DEMOCRATIC GERRYMANDER.
The chief objection to the Constitution, which has been urged upon the President by Oklahoma politicians, has to do with the gerrymander in favor of the Democrats effected in the apportionment. It is charged that the legislative districts are unfairly arranged as to population.

The reply of the Oklahoma Democrats is that the enabling act of Congress, under which Oklahoma was admitted to the Union, contains a gerrymander of Congressional districts favoring the Republicans. It is certain that the President has ordered a special census because he believes the proposed subdivisions of the new State are neither fair nor reasonable and is regarded as highly probable that the Constitution makers will have to modify the districts in this respect before Statehood will be proclaimed.

CAMPAIGN IS ON FOR PURE MILK.

PRESIDENT ROOSEVELT JOINS IN LATEST CRUSADE.

Authorization Is Given for the Assembly of a Federal Commission to Make Scientific Investigation Into Problem, and an Aggressive Inquiry Is Promised.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, June 23.—[Exclusive Dispatch.] President Roosevelt has taken up the milk fight. The crusade against the sale and consumption of infected raw milk and the campaign for the Pasteurization of the milk supplies have aroused the interest of the President to such a degree that he has authorized the assembling of a Federal commission to make thorough scientific investigation into the whole problem.

An aggressive inquiry, it was learned today, is to be instituted immediately, and the official in charge of the work will be Surgeon-General Walter Wyman, head of the Public Health and Marine Hospital Service. The President, personally familiar with the work of the National Strain Infant Milk depots in New York City, has taken the liveliest interest in the progress of the Pasteurization of the milk supply of the District of Columbia.

The commission will be made up of government experts representing all the bureaus having to do with a question of such vital interest. It will be more comprehensive than the local commission was and it will follow Surgeon-General Wyman's program. The authorization of a Federal commission represents a great step in advance in the fight for pure milk. Results of the utmost importance may confidently be expected, not the least of which will be that when the inquiry is concluded, the President will have an expert testimony to quote from instead of going to Paris or Berlin for authorities to support American contentions.

PRESIDENT KEEPS WORD.

Insists That Salary of Secretary of Isthmian Canal Commission Be \$10,000 Per Year.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, June 23.—[Exclusive Dispatch.] "The most rigid degree of efficiency" is the President's imperative order to the Isthmian Canal Commission. Incidentally, another imperative order is that his friend, Joseph Bucklin Bishop, must be retained as secretary of the commission at \$10,000 a year.

Under these instructions, Secretary Taft has not hesitated to work. All Saturday and Sunday and into the night he labored with the problem, aided by the principal members of his staff. When he knocked off Sunday night, he had solved nearly every element of the problem except as to Secretary Bishop.

"I promised Bishop \$10,000 a year when I offered him the position," the President said to Mr. Taft, "and I must keep faith with him."

STORM CUTS PATH.

Cyclone Travels Seventy-Five Miles in Nebraska, but No Persons Are Injured.

(BY DIRECT WIRE TO THE TIMES.)
OMAHA (Neb.), June 23.—[Exclusive Dispatch.] A cyclone passed a few miles south of here early this morning. It traveled seventy-five miles and covered a path only 150 feet in width and did not strike a single house or any kind of injury to a single person or animal. It passed within a few feet of a number of farmhouses, however, and a number of people narrowly escaped death.

The storm destroyed fences and crops and telephone and telegraph poles and wires and whatever else happened to be in its way.

ATTACKS ORCHARD.

pared the way for such testimony from a dozen more witnesses. The two heard today were R. H. Reed, once of Cripple Creek and now of Goldfield, Nev., and the other Charles A. Sullivan.

DAY'S PROCEEDINGS IN HAYWOOD CASE.

(BY THE ASSOCIATED PRESS.—A.M.)

BOISE (Idaho) June 23.—The defense, in opening its case at the morning session, first asked permission to recall Harry Orchard in order to put a few additional impeaching questions to the State's most important witness. Orchard had been brought in from the penitentiary, and was put on the stand immediately after court opened.

Attorney Richardson questioned him. He wanted to know if Orchard had not told Max Malich in a Turkish bath establishment in Denver that Gov. Steunenberg was responsible for his being a poor man, and that he intended to kill him. Orchard never said he had known John D. Elliott. "I do not," replied the witness.

Elliott was in court, and was requested to stand up. Orchard looked at him, shook his head, and said he did not know the man. He denied having any conversation with the man in which he is alleged to have told Elliott he was in the employ of the Mine Owners' Association.

Richardson asked Orchard if he had not told Elliott that "capital" had determined to get rid of union labor and would begin with the Western Federation of Miners; that something was being done in Idaho and would startle the world.

DENIES THE STORY.
"I had no such conversation with any person at any time," declared Orchard. Orchard also denied talking with Elliott about Gov. Steunenberg.

"Do you know D. C. Copley?" asked Richardson.
"Yes, sir," replied Orchard.

"Did you, in his room at San Francisco, discuss the blowing up of Fred Bradley, and that Bradley got what he deserved?"
"I may have said it; I don't know."

"Didn't you say that the man who had a hand in the Cough of Alene troubles—Gov. Steunenberg—had driven the man out of the country, and you intended to kill him?"

"No, sir," Orchard said just that, neither in substance nor effect. There was a conversation in which Gov. Steunenberg's name was mentioned. Orchard was next confronted by Charles A. Sullivan, a miner from Cripple Creek. He said he knew Sullivan, but denied having a conversation with him in which he said that Gov. Steunenberg ought to be killed, would be killed, and if he were not killed, Orchard would kill him himself.

Orchard successively denied having had similar conversations with Fred Hough of Wallace, Idaho, a stage driver, and Lottie Day, a woman he knew in Denver.

"Did you tell Lottie Day that you had seen money in Pettibone's store that you had got from gambling?"
"No, sir."

Orchard denied in turn having made threats against David Coates, F. R. Reed, W. B. Easterly and W. F. Davis.

ORCHARD'S PICTURES SHOWN.

The defense had offered in evidence two of the rogues' gallery pictures of Orchard, taken after his arrest for the murder of Gov. Steunenberg. The pictures show Orchard in a garb resembling that of a tramp, unkempt and unkempt. Attorney Richardson said the pictures were offered to show the jury the condition of Orchard at the time of the murder as contrasted with his appearance today. Judge Wood admitted the photographs, and the jury was handed to the jurors, who examined them closely.

Another picture of Orchard in a group of three men, one of them holding a smoking revolver, was also introduced in evidence by the defense. The picture was taken in Salt Lake City in 1901, and the picture was taken as a novelty. His companions were Andy and Peter Christiansen.

In his direct testimony Orchard told of making a trip into the Vinciguerra mine with a man named Joe Scholts. Orchard said he was not the person of whom he had spoken. Then came the first witness for the defense, Mrs. Mary King, who formerly conducted a rooming-house in Cripple Creek. Mrs. King, an elderly woman, said she was a neighbor of Orchard's in Cripple Creek. She first told of her family, saying she had several grown sons, who are miners, but are not now, and never were, members of the union.

WOMAN TESTIFIES.
Mrs. King said that K. C. Sterling, chief of detectives for the Mine Owners' Association, and also lived at her house in Cripple Creek. She saw Orchard visit his room seven or more times, generally in the evening. Sterling engaged and paid for a room occupied by Mrs. McKinney. The man charged with pulling spikes on the Florence and Cripple Creek Railroad was attempted wreck which the union claims the railroad officials and mine owners undertook themselves with the intent of placing the blame on the Western Federation of Miners.

Mrs. King said she saw Orchard knocking several times on Mrs. McKinney's door. The examination of the witness continued but a few questions tending more closely to fix the date of Sterling's stay at the King house.

Miss Frances S. King, a daughter of the preceding witness, took the stand and identified pictures of Orchard as the man she had seen in the vicinity of the house in Cripple Creek several times. She was not cross-examined and gave way to Mrs. Alice Fitzhugh, who succeeded Mrs. King as proprietor of the Star rooming-house.

C. W. Allen, of Leadville, Colo., formerly a telegraph operator in the employ of the Florence and Cripple Creek Railroad, was the next witness. He told of seeing Harry Orchard, K. C. Sterling and D. C. Scott, a detective of the railroad, in the rooming-house at Scott's room at the Cripple Creek depot. He saw him there twice before the complete train wreck.

On cross-examination Mrs. Fitzhugh said she kept no record of her roomers and was testifying wholly from memory.

WITNESS IS MUDDLED.
C. W. Allen, of Leadville, Colo., formerly a telegraph operator in the employ of the Florence and Cripple Creek Railroad, was the next witness. He told of seeing Harry Orchard, K. C. Sterling and D. C. Scott, a detective of the railroad, in the rooming-house at Scott's room at the Cripple Creek depot. He saw him there twice before the complete train wreck.

On cross-examination Allen said he could not remember what time of day it was that Orchard first came to the depot. He did not know whether Scott and Orchard had ever met before. Allen said his recollection was not very clear as the matter had made no particular impression on him.

Allen said he could not remember the dates of Orchard's visits even as to the approximate time with reference to the train wreck.

"You are just guessing about the

matter, aren't you?" said Attorney Hawley for the State, "and you are not sure about anything."

"I am only sure about it being Orchard," replied the witness.
Two of the next witnesses desired by the defense were not in the room. Court took a recess at 11:45 a.m. until 1:30 p.m.

TELLS OF DEPOT OUTRAGE.

Ira Bilsard of Cripple Creek, a railway conductor and yardmaster, was called to the stand as the first witness after recess.

"Did you testify before the United States commission appointed to investigate the Cripple Creek disturbances?" asked Mr. Darrow.
"No, sir," replied the witness.
"Do you know K. C. Sterling?"
"Yes, sir."

The witness said he understood Sterling was in the employ of the Mine Owners' Association, and he had communicated with Sterling at the headquarters of the association. Bilsard was contracting freight agent of the Florence and Cripple Creek Railroad at the time of the Independence depot explosion. He immediately went there and saw the wire and chair-rung which served as clews.

The defense claims the Independence depot was an all but abandoned station, and that its destruction might have been planned by others than the Western Federation of Miners.

"What sort of a depot was it?" asked Mr. Darrow of the witness.
"The depot was in good condition," replied the witness. "It was a nice, up-to-date station and with good waiting-room. It had a platform in front of it."

The witness next told of putting the bloodhounds on the trail of the men who were supposed to have perpetrated the outrage.

The prosecution objected, on the ground that the dogs had not been qualified, but the court overruled the objection.

Bilsard detailed the route taken by the dogs, who went toward Colorado Springs at a water tank. Bilsard called up K. C. Sterling on the telephone.

OBJECTS TO HEARSAY.
Senator Borah objected to any conversation between the witnesses as hearsay. He declared that the defense had the right to show that some other man than Orchard blew up the Independence depot, if it could, but the evidence must be competent and not hearsay.

"We expect to show," said Attorney Darrow in reply, "that K. C. Sterling was responsible for the blowing up of the depot; that he knew all about it, and we expect to connect Orchard with the Mine Owners' Association."

"Upon that showing the evidence will be admitted," declared Judge Wood. The witness continued:

"I called Sterling up and told him the dogs were on a good safe. He said: 'Call the dogs off, we know who did it.' I called the dogs off. Some days later I saw Sterling in the street. He was with a man who told me the reason he called the dogs off was that he knew who caused the explosion—that it was Steve Adams."

On cross-examination Bilsard said that he did not know either Orchard or Adams. Sterling told him nothing about Adams other than that he was the man who blew up the depot. Bilsard declared that the Independence depot was used as a stopping place, but there was no ticket office there.

Bilsard was followed on the stand by Dr. A. L. McGee, formerly a physician and surgeon in the Cough of Alene, and now a mining broker.

"Where do you live?" asked Darrow.
"On Cough of Alene," replied McGee.
"Right in the water?"
"No—on a boat," replied the witness, amid laughter.

THINKS HE SAW HIM.
He said he had known Orchard since 1897. Orchard delivered milk to his house. The day of the Bunker Hill and Sullivan Mill explosions at Wardner, Dr. McGee said he thought he saw Orchard at Millerton—eighteen miles distant.

"I am not sure of it, but if I am not mistaken, I saw Orchard in the street. He was with a man who told me the reason he called the dogs off was that he knew who caused the explosion—that it was Steve Adams."

On cross-examination the witness said he saw Orchard at the depot one day in 1901. He was talking to a man named Cunningham.

Orchard claims that he gave the Peabody train to a man named Cunningham, who said he wanted to blow up a "scab" boarding-house. The witness positively fixed the time of this conversation with Orchard as the latter part of July, 1901.

D. C. Scott, who came to Boise in 1901, was called to the stand to establish the identity of K. C. Sterling, who, it was claimed, was a secret service man in the employ of the Mine Owners' Association.

Next came F. R. Reed, a miner now living at Golden, Colo., who was formerly of Cripple Creek. He said he had known Harry Orchard a long while. In Union Hall No. 4, at Cripple Creek, in 1902, he said he had conversation with Orchard, in which the latter called Gov. Steunenberg a scoundrel and said he was responsible for the acts committed by his (Orchard's) party, and that he would get even with the Governor.

WORKS SYMPATHY TRICK.
Mr. Darrow's reply precipitated a heated and lengthy discussion by asking the witness to detail his personal experience in the Cripple Creek labor troubles. Mr. Hawley voted for the prosecution a strenuous objection, declaring the labor war in Colorado had nothing to do with the inquiry into the murder of Gov. Steunenberg. He declared the question was asked for the purpose of possibly arousing sympathy by showing the Colorado militia may have done things it ought not to have done.

Mr. Darrow in reply asserted that the prosecution could not pick out of the history of the past few years the isolated incidents it wanted to place before the jury and then shut the defense off in its efforts to show who was responsible for the acts committed by the mine owners.

"Ever since this strife between the mine owners and the Western Federation of Miners the mine owners have been in the aggressive," concluded Mr. Darrow.

He determined to get rid of this organization, and it is only by taking the mine owners to task for their conduct in the Cripple Creek labor troubles. Mr. Hawley voted for the prosecution a strenuous objection, declaring the labor war in Colorado had nothing to do with the inquiry into the murder of Gov. Steunenberg. He declared the question was asked for the purpose of possibly arousing sympathy by showing the Colorado militia may have done things it ought not to have done.

WATCHMAN TELLS TALE.
Charles A. Sullivan, watchman at the Brown Palace Hotel, Denver, and a former miner in Cripple Creek district, followed Reed on the stand. He said he had known Orchard at Cripple Creek in 1902. He then detailed the murder of Gov. Steunenberg, which was made to him and which Orchard denied this morning. Sullivan said Orchard declared that if it had not been

for Steunenberg he would be rich; that Steunenberg ought to be killed, would be killed, and if he was not killed, he (Orchard) would kill him.

Orchard told the witness he was at Wardner when the Bunker Hill and Sullivan mill was blown up. He did not say he had helped to do that job. Court here adjourned until 9:30 a.m. tomorrow.

KING'S COUSIN IS MISSING.

DISAPPEARS ON DAY FOLLOWING HIS WEDDING.

"Lord Stanley," Who Claims Relationship to Ruler of Great Britain, Marries Maryland Spinster, but Bride's Brothers Make Trouble and Bridegroom Leaves.

(BY DIRECT WIRE TO THE TIMES.)

PHILADELPHIA, June 23.—[Exclusive Dispatch.] "Lord Stanley," Earl of Aberdeen, has disappeared, and men on foot, on horseback and in automobiles are scouring Cecil county, Maryland, for the errant bridegroom.

"Lord Stanley," who claims to be King Edward's cousin, yesterday married Miss Irene Clayton, a wealthy spinster of Calvert, in defiance of the vigorous opposition of the lady's brothers. The Claytons made it so uncomfortable for the Earl during the brief time he was under his bride's roof that he departed this morning, and at last accounts there was not much prospect of his return. It was shortly after 6 o'clock this morning that the Earl informed his bride that he was going to procure a team in order that they might start on their honeymoon as soon as possible.

"I'll go over the riding ring, hire a team and come right back," he told "Lady Stanley." The Earl started to walk to Riding Run. He had not gone very far before some of the vigilant farmers saw him. Thinking that he was trying to skip, they told the Clayton brothers. A posse of men was organized, and, procuring horses, they galloped after the Earl. Up to late tonight he has not been found.

POWERS MAKE PEACE PLANS.
NATIONS AT HAGUE EXCHANGE THEIR SCHEMES.

American Proposition Is for Inviolability of Personal Property. Britain Ready to Abandon Contract of War Principle—France Wants Notice of Conflict.

(BY THE ASSOCIATED PRESS.—P.M.)

THE HAGUE, June 23.—The official documents of the peace conference were distributed tonight in large yellow envelopes under seal of the severest secrecy to the 250 members of the delegations, besides the secretaries. The documents contain the text of some of the propositions presented to the conference. The American proposition presented by Joseph H. Choate yesterday runs as follows:

"The private property of all of the citizens of the signatory powers, with the exception of contraband of war, shall be exempt from the high seas or elsewhere from capture or seizure by the armed vessels or military forces of said powers. Nothing in this rule implied in any way the inviolability of vessels which will attempt to enter a port blockaded by the naval forces of said powers nor a cargo of said vessels."

The British proposition of the same date says:

"In order to diminish the difficulties met by the commerce of neutral powers in case of war, the British government is ready to abandon the principle of contraband in case of war between powers which have a conventionality of this principle. The right of search will not be exercised except to prove the neutral character of commercial vessels."

Another proposition submitted by Great Britain says:

"The destruction of a neutral prize by a country capturing it is prohibited. The country making the capture should stand ready to establish the identity of the prize before the prize court."

The French proposition is as follows:

"Article I. The contracting powers agree that no hostilities shall be carried out without advanced and unequivocal notice, having either the form of a declaration of war supported by facts in the form of an ultimatum with a conditional declaration of war."

"A state of war must be communicated to neutral powers with due delay."

HILL ENTERS GOLDEN STATE

Put Surveyors on Line in Northern California.

Will Run Road from Humboldt Bay to Gazelle.

Also Plans Branch Into Western Nevada Country.

(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, June 25.—That railroad magnate James J. Hill has abandoned his plans for extending the rail of his gigantic railway system to the California water line is being evidenced in the movements of several parties of surveyors who are now operating in Northern California and Western Nevada.

Within the past few weeks representatives of Hill lines have been in the city and Los Angeles in connection with the latest development of the California terminal project. The latter is a survey for a line from a point on Humboldt Bay to Gazelle, a distance of 150 miles, and from the same point it is contemplated to build a line eastward to Winnemucca, Nev. The survey of the route between Gazelle and Winnemucca has been partially made. Two years ago the Hill people incorporated a company for the purpose of building a railroad from Boise, Idaho, to Winnemucca, Nev., and it is said that the laying of rails over this route will be hurried along as fast as possible and with these lines Hill would be able to tap the timber country of Northern California and get valuable outlet to the sea in Humboldt county.

YOKUM URGES CO-OPERATION.

RAILROAD OFFICIALS DISCUSS GREAT PROBLEM.

Chairman Executive Board of the United States Railroad Commission declared his belief in the right of government to control capitalization of transportation companies.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, June 25.—A plan to limit the present current of railroad building from destructive into constructive channels is being urged by T. B. Yokum, chairman of the executive board of the Chicago, Rock Island & Pacific railway, in an article in the forthcoming issue of World's Work. Mr. Yokum expresses himself as in favor of direct federal control of railroad capitalization, publicity of railroad accounts and operations and a more equitable adjustment of the rates of the public.

He believes that the solution of the problem is to be found in the cooperation of the people and the railroad through the government of the United States. The plan is to have the railroad could go ahead and build its lines, and carry on its business, without consulting the government. The railroad would be in line with the democratic principle of this country.

That there have been mistakes by the railroad, we admit, and that some of the troubles of today are the result of the mistakes of yesterday. The object of the proposed railroad manager and of the government is to make a repetition of them impossible and to establish a permanent basis for the future.

DISCRIMINATION CHARGED.

Complaint is Made That Rate for Denatured Alcohol to Oregon is Too High.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, June 25.—A curious case was filed with the Interstate Commerce Commission today by the Railroad Commission of the State of Oregon against the Northwestern and Burlington railways and several other lines. It appears that the defendant lines charge the same rates upon denatured alcohol from Chicago to North Pacific Coast terminal points as they charge on other alcohol. By reason of the high freight rates, the price of denatured alcohol in Oregon is greatly increased, as it costs from 12 cents to 18 cents a gallon to transport it.

The Oregon Railroad Commission suggests that the freight rates work an unjust discrimination against denatured alcohol, and asks the Interstate Commerce Commission to fix a just and reasonable rate for its transportation.

HARRIMAN SUES.

CONSPIRACY IS ALLEGED.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, June 25.—A suit was started yesterday in the United States Circuit Court by Henry M. Walker, a resident of New Jersey, against Edward Harriman and other defendants, alleging breach of contract and conspiracy to prevent construction of the Portland, Nehalem and Tillamook railway in Oregon. In his complaint, Mr. Walker places his monetary damages at \$50,000. The corporate defendants and twenty-nine other individuals have not been served, and for this reason their names have been withheld by the court.

The complaint of Mr. Walker says that Mr. Harriman and his associates have been bitterly opposed to the construction of this railway, or any other, in that vicinity, fearing it would interfere with their ownership and monopoly in that part of the State. Mr. Walker asks that a receiver be appointed for the property.

CAR SHORTAGE SERIOUS.

TEXAS ROADS ARE STALLED.

(BY DIRECT WIRE TO THE TIMES.)

GALVESTON (Tex.), June 25.—(Exclusive Dispatch.) According to a statement just issued by the Texas Car Service Association, an unprecedented car shortage threatens the Southwest this fall. Cattle and lumber interests claim a loss of \$5,000,000 by reason of the railroads failing to supply equipment.

With the movement of cotton to begin in sixty days, Texas roads admit the outlook is critical. During the year just closed, the Texas roads handled 1,043,000 cars of freight, exclusive of cattle shipments, shipments of railroads, interstate shipments or less than carload lots.

At present the demand for cars is increased 20 per cent., and the supply for cattle and lumber shipments is 40 per cent. more than the cars available.

Runs First Motor Car.

SAN FRANCISCO, June 25.—The Ocean Shore Railroad Company will run its first motor car over its city line this afternoon. It left the station at Howard and Eleventh streets at 4 o'clock, and ran to the corner of Army and Vermont streets, near the southern limit of the city.

VOLCANO DAMS RIVER.

Water Becomes Boiling Hot, Then Sweeps Down Valley and Finds Many Victims.

(BY DIRECT WIRE TO THE TIMES.)

VALPARAISO (Chile), June 25.—(Exclusive Dispatch.) A volcano which has appeared in the LaUnion district of the province of Caldivia stopped the course of the Papahuan River with an immense stone dam. An extensive lake soon formed, and the waters filled the valley up to the crater.

Soon afterward, the lake began to boil, and as the water continued to rise, its pressure swept the dam away, inundating the neighboring country and destroying everything met in its fiery impetuosity.

Fourteen corpses have been found among the steaming debris. The new volcano lies close to the Mocho Fushe and Piliun volcanoes.

CONSUMPTION BARRED.

Texas Health Inspector Will Turn Back Hopeless Invalids at State Line.

Railroads Agree.

(BY DIRECT WIRE TO THE TIMES.)

DALLAS (Tex.), June 24.—(Exclusive Dispatch.) State Health Officer Brumby is in Dallas today and prepared orders to be issued against permitting consumptives to come to Texas. The State Health Department takes the position that consumptives coming to Texas health resorts in the last stages of the disease are a menace to the health of the State, and should be stopped at the State line, the same as if they had yellow fever.

Health inspectors at State-line points will turn back consumptives. Railroad officials concede the right of the State to do this. The trunk lines entering Texas are to be rigidly inspected.

DRAINAGE ASSOCIATION MEETS.

ST. LOUIS, June 25.—A meeting of the executive committee of the National Drainage Association was held here today to formulate plans and map out the work to be carried on by the association, which was formed in Oklahoma last December. Those present at the meeting were President George E. Harlow of Barstow, Tex.; A. D. Bernard, Cass Lake, Minn., chairman of the executive committee; F. W. Brodman, St. Louis, chairman of the finance committee; and Thomas L. Cannon, St. Louis, general secretary of the National Irrigation Association.

SUMMER TENNIS SCHEDULES SET.

Record-breaking Season Is Present Outlook.

Southern California Championships in July.

Arrangements so Made as to Bring Best Results.

What promises to be a record-breaking season of summer tennis is to open a week from today, when play will begin in the annual Fourth of July tournament at the Ocean Park Country Club.

Four, and possibly five, big championship events are scheduled to be held in rapid succession, and will keep the week tennis players of the South coast continuously on the run until the final event of the tennis year, the Cross championship tournament at San Francisco, takes place in September.

The first tennis in many years, it is estimated that the tournaments will be scheduled in a way that can be fully calculated to give the best results this season. The schedule will be as follows:

Championship, July 3 to 6.
A summer tournament at Coronado, middle of July.

Southern California championship tournaments at Ocean Park Country Club, week beginning July 3.

Peter Hotel tournament at Santa Barbara, August 23 to 25.

While all of these dates have not been set definitely, it practically is settled that the events will be run off in the order. The advantage of such an arrangement is of a practical nature. All of the events prior to the Southern California championships will be played upon good cement courts, and the cracks who have their eyes on the championships will not be forced to take the chance of being thrown out of their game at a critical moment by changing from cement to asphalt courts and vice versa.

If the Santa Barbara tournament is played after the Santa Monica championships this year, as it is likely to be, it is sure to be one of the best-attended events of the year. It will give the players who intend going North to the Pacific, an opportunity to practice on asphalt courts. The popularity of such practice was amply shown last season, when the change was responsible for the poor showing made by the northern team at the tournament of the southerners at San Francisco.

TENNIS AT CORONADO.
The announcement that there will probably be a midsummer tournament at the Coronado courts makes a most welcome addition to the regular list of summer tournaments. The Coronado tournament is held annually, and is considered to be the most successful and popular of the year's events, and the fact that it is held at the Coronado, one of the best of the summer resorts, adds to its popularity.

AT SANTA BARBARA.
The third annual summer tournament at Santa Barbara, played at the Hotel Santa Barbara, will take place this year, probably in the latter part of August, and it is expected that the tournament will be one of the best of the season.

AT OCEAN PARK.
The Ocean Park Country Club tournament, which is held annually, is expected to be one of the best of the season. The tournament is held on the new courts at Ocean Park, and is considered to be one of the best of the season.

SOUTHERN STATE LEAGUE AFFAIRS.

Games for Sunday, June 23, in the Southern California State League are: Hamburgers and Del Rey at Del Rey; Morans and Pasadena at Pasadena; Hoegoes and Pickwicks at San Diego.

Henry Mangarria batted .300 and had a clean fielding record in four games with the Del Rey.

All three Los Angeles clubs go abroad for the Sunday games.

It is said that the two games claimed by the Hoegoes and Hamburgers will be thrown out at next Monday night's meeting, the forty games of the disbanded San Bernardino.

Charley Rodner has been signed by the Del Rey and he will be seen at third base for them on the seaside diamond.

The three Los Angeles clubs all captured their last Sunday games. The ball that is played in the Southern State League is being watched by the Coast League, six players have been given jobs in the last two weeks.

Tom Whaling pitched a fine game at Del Rey last Sunday.

The Morans will be the with the San Diego if awarded the last game with them.

YALE DEFEATS HARVARD NINE.

[BY THE ASSOCIATED PRESS.—P.M.]
NEW HAVEN (CL) June 25.—On the greenward of the Yale field diamond the Yale baseball nine crushingly defeated Harvard, this afternoon, in the second game of the series by the score of 14 to 3. This means a play-off of the tie in New York on Saturday.

For the Blues it was simply a batting bee in the first three innings and as good an exhibition of fielding the rest of the time as team has shown this season, a contrast so vivid in comparison that interest soon turned from the game itself to the singing and cheering of the sons of Eli who had come back for their reunions.

Had it not been for the weakening of Meyer, the pitcher, in the last inning, Harvard would have had to be content with a couple of runs.

All the glory went to Yale, for the Crimson players were slow on bases and dull in their work in the infield, the men in the outfield having repeated opportunities to run sprits to the home runs and two baggers.

Yale's stick work began in the first inning and continued through until the fifth, during which three home runs had made the 10,000 join in welcoming howls of delight.

CORNELL FAVORITE OVER THE MIDDLES.

[BY DIRECT WIRE TO THE TIMES.]
POUGHKEEPSIE (N. Y.) June 25.—[Exclusive Dispatch.] On the eve of what promises to be one of the most spectacular boat races yet rowed in America, the town is swarming with young collegians and old graduates, who are waking the natives from the sober calmness which envelops them for 364 days of the year.

Along the principal streets there is a perfect riot of color in the shop windows, and on the hat bands of those who wish to show their allegiance to one contestant or the other.

With the prestige of many victories and the remarkable improvements shown in the last few days, Cornell has switched into the position of favorite in place of the Navy. The Middies, however, are a strong second choice. Unlike former years, the men from Ithaca are not very keen to back their boat against the field, and the proposition the favor most is even money to beat the Navy.

The Blue and Gold of the Navy, for sentimental reasons, is seen probably more than any other colors among those who have no alma mater to support but who are nevertheless "whooping" it up to a man for the sturdy Middies eight. If confidence in their own ability counts for anything the Navy crew should be the first to nose its shell across the final inches of the four-mile route.

Annual Thames Regatta.
RED TOP (CL) June 25.—With the race for freshmen fours tomorrow afternoon the annual Yale-Harvard regatta, the Thames, will be played. The Harvard freshmen seem to have the best chance for this race according to opinion.

the glad hand when he came to bat. Every play was applauded vigorously.

Barry was the sharpest drop baller in a slow delivery, he has the players breaking their backs to get it.

Raubaughness has a very thin-handed bat, which he holds at the extreme end, he is unable to sting the balls with the amount of force he could use if he held the bat a trifle shorter, so as to balance it.

The San Francisco players are full of ginger. At one time, with a runner at third, the entire infield grouped about the plate when a Los Angeles batter popped a high foul over near the locust bench.

Hildebrand has a way of playing over in left center that would give a left-fielder a good opportunity to drop a few along the third-base foul line.

American Is Beaten.
LONDON, June 25.—In the all-England tennis championships today A. N. Sawyer, the British player, beat H. Behr, brother of Karl Behr, the American representative, in straight sets.

Stranger Ferry in World.
One of the strangest ferries in the world is to be found in India. A Hindu chanced to save the life of a prince and as a reward received one of the largest elephants in the royal stables.

But this honor caused the recipient much anxiety, as the animal's appetite was too great for his owner to satisfy. The Hindu's house stood near a turn in the river, where many persons crossed, and as the stream was at times a raging flood, boats and men were often carried out of their course.

On one occasion, when the elephant was bathing in the river, it suddenly occurred to the owner to use the animal as a ferryboat. A harness was made for the elephant, with a long rope as a trace, which was fastened to a heavy boat. The latter, loaded with passengers, was successfully towed over the river, and since that time the animal has been a source of profit to his owner.

summoning the people to
resistance by force the struggle
the strike, will be in complete
regarding the United Railroads.
Mutual aid.
From our standpoint, the strike
was won. We have 110 platform
service, when we are paying
\$5 to \$12 cents an hour, or \$2.50 to \$3
a day, the scale in effect before
the strike. About 100 of these 110 are
the ranks of the strikers. We are
gradually extending the service
complete restoration, and from time
to time we shall have places for about
these motormen and conductors.
Before the strike 410 cars were
operation. By tomorrow we shall have
on the tracks. The average number
of cash fares carried yesterday
was 275,000, the average number
of cash fares about 150,000. At
present time we are doing about 80
percent of the normal volume of business
and the maintenance is increasing
daily. We are more than satisfied with
results.

LOTS 275

We've No Kick Coming!

SIX (6) LOTS SOLD LAST WEEK, AND AS A RESULT TWO (2) MORE HOUSES TO BE STARTED VERY SHORTLY. THERE ARE FIFTY-TWO (52) houses now in the tract, and all occupied, excepting those in course of construction.

THE REASON for this activity is not hard to find. We're selling the **BEST** property in the **BEST** suburban town in the **BEST** section of the **BEST** country, and throwing in "the **BEST** climate on earth." Our prices are the **BEST**; our terms are the **BEST**; and—well, come in and see if our treatment isn't the **BEST**, too!

SOMEBODY SAID "AUCTION." Well, here's a fact. On last Monday week, a clever auctioneer sold lots within a stone's throw of our tract at prices from 10 to 25 per cent higher than ours, and that tract is two blocks further away from the business center than ours! Our lots have every improvement those have, and, in addition, have electric light and telephone poles all ready for the juice—a feature found in no other large tract in Glendale.

NOW JUST THINK—a 50-foot lot, level, covered with bearing vines, finest soil, pure mountain water piped, cement walks and curbs, streets graded and oiled, good schools, churches and stores close to the best electric road hereabouts, and all for from \$350 to \$525, and on your own terms. Other lots, 50 foot front, with the same improvements, including electric and telephone poles, but without cement work, for as little as \$275. Let us show you at our expense. **DO IT NOW.**

GREEKS HELD IN SLAVERY.
Federal Officials Discover System of Peonage in Chicago Fruit Stores and Shoe Shining Parlors.
(BY THE ASSOCIATED PRESS—A.M.)
CHICAGO, June 25.—Several hundred Greek boys are being held in peonage in Chicago fruit stores and shoe-shining establishments. This fact has been revealed by an investigation conducted by the Federal Immigrant office, aided by Nicholas Salopoulos, the Greek Consul-General. Prosecution of the employers for violation of the immigration law will be based on the evidence obtained.
The methods by which the boys are imported and landed in Chicago were brought to light through the arrest yesterday by George Antonopoulos, on the charge of perjury in making an affidavit that two Greek immigrants arrived at Boston were his brother and nephew. The case will be heard by Judge Landis on Thursday, and the Belittious brother will be a witness for the prosecution.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Discovered in Time.

Dr. C. L. Sexton's discovery of a fire in the German-American Building, about 6 o'clock last night, probably saved the building from much damage. The loss was nominal.

Arrest Follows Quarell.

A disagreement with a junk peddler at First and Rose streets, last night, led to the arrest of Frank Brady and J. Buchanan, on the charge of disturbing the peace. They were released upon bail.

Drunk-rolling Suspected.

A. T. Scherer, a faculty-dressed young man, was arrested near the Arcade Station last night on suspicion of being a drunk roller. The police say that the young man was in company with an older man, who was slightly intoxicated.

Merchant Tailors to Close Early.

The leading merchant tailors of the city entered into an agreement yesterday to close their places of business at 1 o'clock in the afternoon on Saturday during July and August. It was stated last evening that practically all the tailors have approved the plan and will carry it into effect during the two midsummer months.

Where is Kidder?

A communication from the Washington (D. C.) Post was received by the police yesterday, asking them to locate E. F. Kidder. According to the officers Kidder was formerly an employee of the Post and afterward went to St. Joseph, Mo., there residing at No. 121 Market Square. It is believed he is now in Southern California.

Hundred Thousand Lady Bugs.

Deputy State Commissioner of Horticulture Fred K. Mackew has gone to Coachella, to distribute 100,000 ladybugs, to battle with the destructive white and green aphids, the pest of the melon growers. As the ladybugs multiply rapidly, growers in the Coachella Valley believe they will soon have the aphids pest under complete control.

Local Lodge Makes Change.

Harmony Chapter, a local subordinate lodge of the American Guild, with headquarters at Richmond, Va., at its meeting held last evening, transferred its entire membership to the Universal Order of Foresters, and will be hereafter known as Liberty Council, No. 17, U.O.F., meeting each Monday evening, as usual, in Mammoth Hall, the Universal Order of Foresters is a local organization.

Extend Healy Welcome.

F. Q. Story, chairman of the local N.E.A. committee, makes an appeal to the merchants, and people generally to the business section of the city, to assist in making the streets attractive during the coming month of the N.E.A. association. He is planning an elaborate electrical display, and urges that evidence of a welcome characteristic of the people of Los Angeles, be displayed by business houses and residences.

Death of Railroad Man.

Word was received at the Southern Pacific offices, yesterday, of the sudden death of Frederick M. Frye, the company's commercial agent at San Diego, early yesterday morning. Mr. Frye was in the employ of the Southern Pacific for about ten years and was well known among railroad men, having been connected with the Union Pacific previously. The funeral will be in San Diego tomorrow. A widow survives him.

Old Man Seeks Nephew.

D. C. Kennedy, 94 years old, is detained in the City Jail. The police are trying to locate his nephew, George Kennedy, a car inspector of the Southern Pacific, who formerly lived at No. 3912 Temple street. The old man arrived in Los Angeles yesterday afternoon, and remained at the Los Angeles-Pacific depot until taken in charge by the police. He is very feeble now, but he negotiated the sale of a \$400 tract of land in Eastern Oregon; traveled overland 100 miles to a railroad, and went by train to Seattle, where he took ship for Port Los Angeles.

Twenty-three Mighty Pullers.

Following the examinations held by the State Board of Dental Examiners at Los Angeles the 10th to the 15th inst., the following named are reported as successful, and entitled to license to practice in California: W. R. Burbeck, B. Schafhirt, Ida B. Norman, C. E. Williams, C. M. Reinberg, J. R. Rose, R. W. Ford, H. B. Harwood, C. O. Engstrom, E. E. Osenberg, C. E. Phillips, B. B. McCollum, H. H. Haas, L. A. Viernan, A. B. Allen, W. F. Uhl, C. A. Terry, G. L. Richardson, P. F. Spicer, R. E. Wool, R. P. Updyke, W. F. Hammond and W. A. McHargue.

Blind Sweet Singers.

A benefit will be given for Mr. and Mrs. William Baker, the blind singers, at a meeting of the Los Angeles W.C.T.U., tomorrow afternoon, at 2 o'clock, in the First Methodist Church. Mr. Baker is possessor of one of the most remarkable tenor voices, which is marvelous in a man of his age, while Mrs. Baker's alto is as sweet as the notes of a quail. They have been well known in Los Angeles for several years. Mrs. H. V. Wheeler will recite, and an address on "The Power of the Press" will be made by Miss Emma Black of Cincinnati. An offering will be taken up for the benefit of Mr. and Mrs. Baker.

BREVITIES.

In order to raise \$30,000 to pay for the street improvements in Hollywood Park Place, Otto Weid & Company, and the W. A. Roberts Realty Company, sole agents, have decided to sell at auction the 12 lots remaining of the 22 lots in the tract, on Saturday, June 23. Sale will begin on the tract at 10 a. m., and continue all day, with A. W. Louderback as auctioneer. Lunch will be served at noon. The auctioneer has been instructed to sell at any price, without reserve, until the amount specified has been raised. This will positively be the only chance to get a lot in the heart of Hollywood at one's own price. The terms will be one-fifth down, balance in thirty equal payments, 5 per cent. off for each cash, 2-1-3 per cent. off for one-half cash. Free tickets and maps may be obtained at the office of the agents, 614 O. T. Johnson Building. Take any Hollywood car and get off at Calverton avenue. Auction on tract one and one-half blocks north.

ACCUSED OF STARVING AGED GRANDMOTHER.

Aunt Makes Charges Against Nephew, He Strongly Denies.

District Attorney Will Investigate Death of Mrs. Bowman, and Body May Be Exhumed—Catholic and Protestant Services Held Yesterday, the Former Over Empty Catafalque—Estate Involved in Controversy.

THAT her mother, Mrs. Maria S. Bowman, who died at No. 128 East Adams street on Saturday, was starved to death after having been horribly ill-treated, is the startling charge made by Sister Minnie Bowman, of the Ursuline convent, Frontenac, Wis., now here. Sister Bowman declared last night that her nephew, Fred D. Samuel, had starved his grandmother to death that he might secure her estate.

Complaint was made to Dist. Atty. Frederick yesterday, and the case will be investigated by him at once. The facts will likely be taken before the grand jury. The body of Mrs. Bowman, buried yesterday in Inglewood Cemetery, may be exhumed. Telltale marks which are said to be on the wrists of the corpse may have a direct bearing on the charges made by the daughter.

"My mother died of starvation," said Sister Bowman. "She would be alive today but for my nephew, Fred D. Samuel. He has a horrible temper."

OLD-TIME TEACHER DEAD.

Lived Here Thirty Years and Will Be Laid to Rest by Masonic Brethren.

This afternoon, W. H. Henderson, one of the early-day school teachers of Southern California, succumbed to paralysis at the Clara Barton Hospital, after an illness of two weeks. He was taken ill on June 10, while living alone at Willowbrook, and was at once taken to the hospital by friends. He had been a resident of this city and Prospect Park for thirty years, and he owned property at the latter place which he sold last fall and removed to Willowbrook. He was a native of Scotland, and has no living relatives in America, and only a niece and a cousin across the Atlantic. He was 76 years of age, and was a prominent Mason, being a member of Anshelm Lodge, chapter and council. The funeral will be held at 4 o'clock this afternoon under the auspices of the Masonic Relief Association at the chapel of the Overholser-Mills Company, with interment at Rosedale.

ANNEXATION IS THEIR OBJECT.

UNION OF LOS ANGELES AND SAN PEDRO DESIRED.

Status of Harbor Town as City of Fifth Class to Be Tested in Courts and Upon Result Will Depend Disincorporation and Ultimate Union to This City.

Is San Pedro a city of the sixth class, or is the seaside town a fifth-class city in fact, or only in pretension?

This is a point which has arisen in the minds of leading citizens of the harbor town, and on which matters of grave importance rest. Annexation proceedings, with a view of becoming a part of Los Angeles, may depend upon the decision of the question involved.

That the courts will be called to pass on the issue there is little doubt. The process of law will be invoked, it is understood, by citizens of San Pedro, who believe the town never really and legally changed its status, and that, therefore, it is in a position to disincorporate and then come into Los Angeles on regular annexation proceedings.

The points involved in the middle are somewhat complicated, but City Attorney Leslie R. Hewitt declared yesterday that he believed the town has never passed from the state of a city of the sixth class, and therefore is entitled to disincorporate if it so desires.

Long ago San Pedro became, in due form, a city of the sixth class, in accordance with the provisions of the California statute. On February 5, 1905, a special election was called to reorganize as a city of the fifth class and adopt a city charter. The proposition was endorsed by a majority of only seventeen votes. On April 4, following the special election, new officers were elected, and San Pedro started on as a full-fledged city of the fifth class.

The entire legality of the proceedings hinges upon the fact that the reorganization of the city was brought about at a special election instead of at a general election. There are two acts of the Legislature on this point, and they seem to conflict, the one passed in 1892, and the other in 1905. The latter act provides that changes shall be made only at a general election, and, inasmuch as this law was passed last, it is considered that it repeals all former acts, and that therefore only general elections apply to such cases.

It is practically certain that legal action will be taken by the people of San Pedro to determine the present status of the city. This will be done either through a referendum, or by means of application for a writ of mandamus.

Prominent San Pedro citizens, it is said, feel that this is a propitious time to bring up the validity of the present city government, and that the sooner San Pedro secures an annexation with Los Angeles, the safer will be its harbor interests. They believe that they will have plain sailing in getting aside the fifth-class city government, and that their disincorporation will be easily effected, and that annexation will be a foregone conclusion.

They point out that, while there is no denying that gifts of harbor frontage have been made far too freely to private interests, there still remains as a city property frontage that is of the greatest value, and that both Los Angeles and San Pedro should combine to protect. The claim is also made that, with this water-frontage property developed, the combined cities would be in a position practically to dictate rates as to wharves, and to maintain practically a free harbor, despite the numerous individual holdings on the bay frontage.

POCKETS OF PEOPLE BULGING WITH GOLD.

Banks Begin Handing to Depositors Nearly Million Dollars.

Stockholders in Many Thrifty Los Angeles Financial Institutions Also Share in Exceedingly Good Thing in the Way of Dividends—Vast Sums in the Vaults Show Our Prosperity.

FINANCIAL week began yesterday and over \$1,200,000 will be paid out in interest to depositors and as dividends to stockholders in the various banks of Los Angeles.

This tremendous sum is an earnest of the prosperity of Los Angeles, representing the earnings upon deposits of over \$113,000,000 in local banks, over \$40,000,000 of which is in savings banks to the accounts of the independent workmen and women of this city. Three of these savings banks alone carry over 74,000 accounts, with deposits of nearly \$32,000,000.

Next Monday, July 1, will be the great dividend day, when the majority of the banks will make over to their depositors about \$900,000 in accrued interest for the past six months, and to stockholders about \$235,000 as earnings upon their holdings of capital stock.

In spite of these great sums in the banks it is harder than usual to borrow money even upon the best of securities. Speaking of this phase yesterday the cashier of one of the principal banks said that while every other commodity, including labor, has increased in cost greatly in the past few years, money is as cheap as ever, practically the "cheapest thing in the market." Interest rates are still from 4 to 7 per cent.

The first half of the year 1907 ends in Los Angeles with about fifty financial institutions doing business. Forty are firmly established institutions, and there are fully a half dozen companies doing a combined banking and brokerage business.

The capital of the forty banks is \$12,945,000. Their combined surplus holdings add \$5,636,002 to the resources. The total deposits on or about June 15, were over \$113,141,551.

Monday, July 1, will be dividend day in the great majority of the local financial institutions and a sum of \$235,125 will be disbursed to the stockholders on that day. As this dividend is in many cases a semi-annual one, and in a number of instances a quarterly affair, this represents a small part, only, of what Los Angeles banks pay to their stockholders annually.

As 2 and 4 per cent. is paid on deposits in savings banks, there will be a further disbursement of fully \$900,000, making the total disbursements to depositors and stockholders over \$1,200,000.

Nine of the local banks are national institutions. These carry on the greater part of the commercial business of the city. These nine have a total capitalization of \$5,350,000. Their combined surplus is \$1,424,246. At the last call of the Comptroller of the Treasury, May 23, the local national banks held deposits of \$4,625,142.

There are eleven State commercial banks. Their combined capital is \$1,706,000. There is a total of \$10,055,137 in deposits, and a total surplus of \$2,252,000. These have a combined capitalization of \$2,800,000. Their combined deposits on or about June 15 reached the huge sum of \$46,180,000. To a further disbursement of fully \$900,000, making the total disbursements to depositors and stockholders over \$1,200,000.

Five more do a trust company business. The combined capital of these five institutions is \$2,225,000. Deposits with these banks total \$9,063,000, and the surplus reaches \$235,682.

THE OLDEST AND ONE OF THE STRONGEST banks of Los Angeles is The Farmers and Merchants National. It has a paid-in capital of \$1,500,000, a surplus account of \$1,800,000, and an undivided profit account of \$448,353, making its resources total \$3,748,353. Its deposits on May 28 totaled \$12,622,543. Monday this bank will begin paying to stockholders \$45,000, or 3 per cent. of its capital. This is a quarterly dividend, placing the stock on a 12 per cent. basis. The bank probably will carry to its undivided profit account another \$100,000.

Next in size, as to capitalization, is the First National Bank, with \$1,250,000 of capital, a surplus and undivided profit account of \$1,422,172, and additional assets of another million and a half invested in the stock of the Los Angeles Trust Company and the Metropolitan Bank and Trust and held by the officers of the First National in the interests of the shareholders of the latter bank. This conservative institution's deposits totaled, at last call, \$14,600,659.37. This bank pays at the rate of 3 per cent. on its deposits.

OUR CAPITAL STANDS HIGH.

The following statement showing the total capitalization of the banks in Los Angeles, Oakland, Sacramento, Seattle, Portland, Tacoma, Spokane, Helena, Butte, Salt Lake City and Denver, with their surplus, presents an interesting study of comparisons. Los Angeles, with a total capitalization, \$13,945,000, has 23.2 per cent. of the gross total of the capitalization of all the banks of the eleven cities named:

	Capital	Surplus
Los Angeles	\$13,945,000	\$5,636,002
Oakland	2,520,100	2,259,000
Sacramento	2,566,500	1,110,674
Portland	2,632,000	1,846,100
Seattle	2,603,000	2,221,064
Tacoma	965,000	504,857
Spokane	1,750,000	917,417
Helena	800,000	205,347
Butte	800,000	1,090,376
Salt Lake City	2,550,000	1,154,491
Denver	4,075,000	3,301,765
Totals	\$36,263,600	\$21,397,603

Arraigned in Police Court, yesterday, a man known as Clarence Trilbey, was arraigned before Justice yesterday afternoon. Bail was set at \$1000. The negro could not pay it, and he was taken back to the jail.

Complete investigation of the case by District Attorney Pearson showed the crime to have

one of the most brutal ever committed in the county. The assault upon the girl on the Monrovia road, made by a Chinaman, who was given by the child's relatives, was a horror with the child and her mother. Yesterday the child was taken to the station in a carriage. There she was held. When she had finished her meal, she was taken to the station, where she was held.

Twelve Mexican laborers were pain-

collision between a work car and a
freight train from the Santos packing

road, near the Santos junction. That
the men escaped with their lives is
considered miraculous in view of the
fact that the car was going at a rate

A relief train was rushed to the

**Why Baby's Food
Disagrees**

An unnatural food is almost certain to
disagree with baby.
Did you ever hear a well mother, who
was nursing her baby, say that baby
food did not agree with him?
Almost never.
Mother's milk is nature's food.
Sanipure Milk is nature's substitute
for mother's milk. It contains the same
things mother's milk does—in almost
the same quantities, is more nearly like moth-
er's milk than any other infant's food.
Cow's milk forms hard, lumpy curds
in the baby's stomach—that is why foods
mixed with unchanged cow's milk do
not agree with baby.
Sanipure Milk is cow's milk with the
faults left out. The formula is on every
can—show it to your doctor.

POCKETS FULL OF GOLD.
(Continued from First Page.)

Eight months ago, it is capitalized for \$100,000, all paid in. The surplus and undivided profits now total \$20,000. So far, the earnings have been utilized in charging off the expense of fitting up the bank's quarters in the Hotel Alexandria building. No dividends will be paid.

The Federal Bank of Los Angeles is among the smallest in line of capital of the commercial institutions, having \$5,000 capital. It is coming up in the way of deposits, having, at last report, deposits totaling \$271,002.38. The surplus amounts to \$742.

The Main Street Bank is one of the institutions recently established in the outlying districts. It has a capital of \$20,000, and is reported to be doing a handsome business among the merchants and business men of the locality. Deposits have reached \$72,000. At present, no surplus account has been established, and no dividends will be paid this year.

One of the most prosperous of the smaller banks here is the Market and Produce Bank at Central and Towne avenues, in the heart of the wholesale district. The capital is \$50,000, and deposits are about \$210,000. There is a small surplus of about \$100 in the treasury.

The Bank of Huntington Park has a capital of \$25,000, and deposits of \$100,000. It has been organized about one year, and pays no dividends, although the officers report that business is extremely good.

The South Side Bank on Central avenue is one of the busy outside banks. The capital stock is \$25,000, and deposits are at about the \$50,000 mark. A small surplus of \$800 is reported.

Among the commercial banks may also be classed two Japanese banks. The Kimmon Ginko has a capital of \$100,000, and deposits of \$1,000,000. It has been organized about one year, and pays no dividends, although the officers report that business is extremely good.

The largest among the savings banks is the institution known as the Security Savings. It has a capital of \$500,000, and deposits of \$1,140,000, surpassing the huge holdings of the largest national banks. At about June 15 the surplus fund amounted to \$250,000. The most interesting news is that the dividends have been increased from 13 per cent. to 15 per cent. per annum. These are paid semi-annually at the rate of 1-1/2 per cent. and checks now are being written out for \$7,500.

All arrangements have been completed for the consolidation of the Security Savings and the Southern California Savings. The latter has a capital of \$100,000, and deposits of \$1,140,000. The surplus is about \$240,000. It paid dividends of 13 per cent. a year in December and January. With the consolidation, the new Security will have a capitalization of \$700,000, and resources of \$1,140,000, while the total deposits will reach about the \$2,000,000 mark. Workmen are fast completing the magnificent room, on the ground floor of the Century City building, on the southeast corner of Fifth and Spring streets, and the officials of the bank hope to be transacting business in the new quarters by August 1. A sum of \$250,000 will be paid to depositors in interest by the Security, and about \$150,000 by the Southern California.

The German-American Savings is the next largest institution. This has a capitalization of \$250,000, and deposits total the sum of \$9,450,000. A surplus of \$250,786 also exists. This institution pays a dividend of 30 per cent. a year in January, April, July and October. It will pay to stockholders \$30,000 in dividends next Monday. Depositors will receive 10 per cent. interest for the last six months, on July 1.

The Equitable Savings Bank has a small capital, only \$50,000, but is one of the most popular banks. Deposits are approximately \$1,100,000, and the surplus fund totals \$150,000. A semi-annual dividend of 4 per cent. is paid in March and September. \$12,000 being paid to shareholders next Monday.

HANDSOME PROFITS.
The American Savings has a capital of \$250,000, and pays a semi-annual dividend next Monday, of 3 per cent. a sum of \$500 going to the stockholders on that day. The deposits are about \$1,600,000, and the surplus is \$50,000.

The Home Savings, with two branches, one on North Spring street and one on Broadway at Mercantile Place, is capitalized for \$200,000, with \$37,750 paid up. Deposits are \$850,000 approximately, and the surplus account totals \$100,000. A semi-annual dividend of 4 per cent. is paid annually to the amount of \$8000, in April and October.

The International Savings and Exchange Bank has a capital of \$300,000, of which \$125,000 is paid up. It has been organized a little more than two years and has deposits of \$850,000. There is a surplus fund of \$8000. No dividends have yet been paid.

The Fraternal Savings and Commercial Bank is another young institution. The capital is \$100,000, and deposits total \$155,000. The only disbursements for July 1 is the interest money to depositors, as the bank was organized just a year ago.

The Dollar Savings Bank is among the most prosperous savings institutions. The capital is \$100,000, and deposits total \$1,100,000. The capital stock is \$100,000, all paid up. A surplus fund of \$30,500 has accumulated. The last dividend was at the rate of 6 per cent., but stockholders were pleased to receive notice that an increase had been made to 8 per cent. a year basis. Payments at this rate will be made July 1, \$4000 being disbursed to shareholders.

The Globe Savings is a young bank with a capital of \$200,000, \$150,000 of which is paid in. It was organized October 1, 1928, and has declared a dividend of 6 per cent. to be paid semi-annually in January and July, \$4000 going to stockholders on Monday. Deposits total \$78,000.

The Manhattan Savings Bank has a capital of \$25,000, and although only a year old, has deposits of \$125,000. There is a surplus of \$2500 in the treasury. Announcement is made that the bank may double its capital by the end of the present month.

TRUST COMPANIES.
The Los Angeles Trust Company is a strong institution. It is owned by the First National Bank. The capital stock amounts to \$1,000,000, and deposits total \$1,400,000. The surplus fund is above \$27,000. A 5 per cent. dividend is paid semi-annually in January and July.

The Southern Trust has a paid-up capitalization of \$1,000,000 and is in-

Ventura county was heard from yesterday, Miss Muriel Ellis, the young high-school miss from Ventura sending in a score that landed her in the fourth row at the first leap. If she keeps up the pace she has set there will be some scurrying among the top-liners.

Edna Wagner continues to hold the top perch, with Jennie Bloom hot after her and Stanley Tolley, the Ocean Park boy, climbing hand over fist after them both. Stanley came up to town again yesterday. He is looking after his city subscribers sharply now lest, in the rush of local competitors some of them get away from him. Stanley is just full of business from the tip of his russet shoes to the crown of his well-shaped head. He entered the

STANLEY TOLLEY, JR., Ocean Park candidate.

contest with the express determination of winning his scholarship and a good, fat cash prize and he is not to be daunted. His picture shows him in a favorite pose and you can tell by the attitude that he is the sort of a boy who makes a business of getting what he goes after.

HITTING HIGH.

Mar Moon Gong, the Chinese boy, is going some, too. In spite of the Ventura girl's big jump, Moon goes up a peg this morning, by grace of the thousand points and more that he turned in. Moon's face was radiant when he reported at headquarters. He says that he has lots more subscriptions coming and he feels pretty confident of winning the coveted piano scholarship and eventually going to Canton to teach his countrymen how to get music out of a piano. Moon belongs to one of the missions and is a studious and most exemplary boy.

EAST SIDE CANDIDATE.

Rosine LeHardy comes up a couple of pegs, too, and sits down in the tenth row. Rosine is the East Los Angeles candidate and you can tell by the attitude that she is the sort of a girl who makes a business of getting what she goes after. She is a stranger here, Rosine has received considerable assistance from a friend at Huntington Beach who became interested in her last summer at Mecca and who has sent in several subscriptions in her favor, for which Rosine is deeply grateful.

GET INTO HONOR ROLL.

Four more contestants score in this morning, and as a consequence rise into the honor roll at the head of the column. Hurry up, boys, and girls, and get your names out of the general list and into the top score. Laura

Easton is the first Sawtelle candidate to report from that place and she commences several pages from the bottom. Success to the Sawtelle girl.

Jeanette Coffman and Ben Hitchcock also come up this morning into the score. Eight city contestants are yet to be heard from. As the general list shrinks, the honor roll grows. By the end of the week, let us have scores from as many contestants as possible.

GOING UP.

Ralph McNitt moves up into the four-figure column this morning and Fannie McNitt, the Pico Heights miss, goes up seven rows—from the very bottom of the list, yesterday, to almost the middle row today.

Alice Chapelle turned in a good score yesterday, too, and Laura Lloyd moved up two rows, almost doubling her score of the first day. Another Redlands candidate entered yesterday—Miss Virginia Ellsworth, who will race with Blanche Leonard for supremacy. Redlands is a rich, prosperous city and can well support two candidates.

OUR CALLERS.

Among the callers at headquarters yesterday were two of last year's popular girls—Vivian Bassett and Esther Zuber—who stood third and fourth, respectively, in last year's contest. Both girls are back today, a rest this year but intimate that they may try their mettle again next year. Vivian is out of the race from necessity, too, for she had the misfortune to fall a few weeks ago and break her collar-bone and is just out after three weeks in bed. She won her scholarship and \$125 cash last year.

Esther has been a student at Huntington Hall throughout the year. This is her second year at the institution as she won the scholarship there both last year and the year before. Esther wears a beautiful gold chateau watch which she purchased as a souvenir of last year's race with a part of the \$110 she won. "I've put the rest of it in the bank," she said, "for a little next year."

IT DEVELOPS THEM.

It is wonderful how quickly and how well these young people learn business principles from their work in the contest. Last year Edna Wagner entered the contest for the first time. She turned in no score at all until the fourth day when she got 111 points to her credit. Edna has led for two days now in the contest of 1917. "I learned how to work last year," she says.

THE PRIZE PIANO.

The prize piano offered as a special reward to the contestant who ranks highest this year is a splendid instrument of the Kurlmann make. It is fully warranted by the manufacturers and endorsed by the Geo. J. Birckel Company. It is conservatively valued at \$425 and the winner may select either mahogany, walnut or oak case. This fine piano will be placed on exhibition in the windows of the Birckel company at 345-347 South Spring street where it may be seen by all the contestants and any who wish to inspect it.

POSSIBLE LEADERS.

The following contestants have not yet turned in scores but will doubtless be heard from before the week is out. Many of them live at distant points and the music cannot reach The Times in time for publication the first day:

TWO NOTCHES ON HIS GUN.

But Pierce Old Man Is Sued for Damages.

Pictureque Story Involving Cattle and Courts.

Injured Parties Seek Sale of Dollars and Cents.

A case involving the question of why certain cattle were in the possession of certain persons came to trial in the Superior Court yesterday. The events on which the action was based occurred in the neighborhood of Newhall, and the Catalina Canyon where, seven years ago, W. C. Chormick killed two men on principle, in defense of a squatter's claim on a quarter section of dreary land.

W. C. Chormick, grown old and slightly deaf, but without any dimness in his fierce black eyes, was the defendant in the action on trial yesterday.

The plaintiffs were two men of a sensitive race, and utterly resentful they appeared in speaking, on the witness stand, of the charges of grand larceny which had been brought against them by the old man with two notches on his gun. The charge had been peculiarly offensive because it referred to cattle. Traditions linger long in the Catalina hills.

The suit was brought by Martin Urtasan and José Mayonacelaya, each demanding \$25,000 damages for three days' imprisonment. They allege that they were arrested without probable cause; that they have suffered much through the incarceration, and that their good names have suffered irreparable injury through being connected with a cattle transaction of alleged irregularity.

STORY OF CATTLE.
José Mayonacelaya was the first witness. He told of finding the ninety-five head of cattle on section 26, land which he claims to own, and of closing a gate to keep them in a fenced tract. This had been done on August 12, 1928. Food was short in the pasture, he testified, and on August 14 he and Martin Urtasan drove the cattle to the Newhall ranch pasture and left them there, as strays, for a keeping.

The witness stated that the same day he had seen Mrs. Chormick in a buggy on the road, and had told her where the cattle were. That evening, he said, in Newhall, Constable Farley read a paper to him and his companion and had told them they were under arrest for stealing the cattle.

Before the justice of the peace at Newhall their examination had been held, and they were discharged from custody.

On these facts, with the support of testimony to animosity which the old man of Catalina had previously had shown toward them, the plaintiffs based their suit. They alleged that their arrest and imprisonment had been the result of wilful malice on the part of Chormick.

SUDDENLY AT CHARGE.
In support of his claim to good character and to show the improbability of his having even thought of stealing cattle, José Mayonacelaya offered discharges from English ships on which he had served, and from the United States government service. In some of these, however, the name given was José Magana.

"They called me that," explained José, "because they couldn't spell my name."

Martin Urtasan, testifying through an interpreter, said that on one occasion, previous to the cattle incident, Chormick had told him to fence which he, the witness, and José had built.

"I asked him how he would fence it," he broke down his fence," testified the witness, "and he said he would kill us if we did. He used to carry a shotgun about with him."

It was with a rifle that Chormick killed the two claim jumpers in 1898. He had built a cabin on the claim, and the pair who chose to contest his right came with a load of lumber, to build a cabin for themselves on the quarter section. In his testimony at the trial, when he was charged with murder, he testified that he warned the men off once, and that they had returned with the lumber. Then he had shot in defense of his homestead in the unwatery hills.

The case at the time attracted a great deal of attention, partly because of the bareness and poverty of the land for which the killing was done Chormick was freed.

The defendant in the present action will present his case today.

SELLS POMONA GROVE.
Thousand Dollars Per Acre for Orange Orchard Which Is Now in Full Bearing.

A deal has just been closed through J. A. Fitch of Pomona by which Rev. Dr. E. R. Sheppard conveys to Dr. J. C. F. Cummins his twenty-acre navel orange grove, north of Pomona, for \$25,000. The grove is in full bearing, and is amply supplied with water from the Loop-Meserve system, in which water costs only about 50 cents a acre a year. Dr. Sheppard takes as part payment a fine apartment house on Center street, near Garey avenue, Pomona, at valuation of \$15,000, and also gets cash amounting to \$10,000. The house is rented at the rate of \$20 per month.

L. S. Tucker has sold to Francis O. Little, frontage aggregating seventy-one feet on East Kensington road, and about 200 feet east of Douglas street. The property consists of part of four lots, which range in depth from 145 feet to 265 feet, according to the lay of the land. The reported consideration is \$3500. The property is in the choice Angeleno Heights district. Mr. Little is planning to improve the entire property with three or four houses within a month.

Joseph Dieckrich has bought from William F. West, through Will C. Frasier & Co., the northeast corner of Normandie and West Adams street, 130 feet, improved with a modern thirteen-room house, known as No. 1601 West Adams street, price \$14,500. A petition is said to be out, and being circulated to pave Adams to the city limits.

Ladies' Sample Shows.
Ladies, visit my sample show shop tomorrow. I just received ten cases of the latest styles you ever saw. You know I charge a pair for everything I get and I am getting shoes that are worth from \$1.50 to \$2.50. I can put almost every foot in these advanced styles. I am worth a visit to my show. It is on the fifth floor of the Mechanics Trust building, Harry Magill, the Sample Showman.

REMOVAL SALE

Fine Lot of

PIANOS

Bargain Prices

Busy, busy, no time for anything, only to sell pianos. Been trying several times to tell you about this sale.

Now crowds are finding their way to our piano bargains. Why not you? No, it doesn't take much money. Just a little time and just a little money and there you are with a fine new piano. Suppose you run down and see what you can see. Waiting for you are several fine, ripe, juicy bargains, fine as ever was picked. Look at this: You dare not doubt the grades. Crown, Steck, Schaff Bros., Wissner, Irving, etc. You can tell more in a minute on our floor than by a solid hour's reading. Bring in \$15 or \$20 with you today. Yes, be quick about it, for only a brief spasm of time and the sale is over.

We only intended it to last the week, and pianos are getting scarce on Tuesday.

Do not wait, do not delay. Delay in this case is not only dangerous, but fatal.

Can't Miss It
So many ailments are purely nervous affections, that you can hardly miss it if you try Dr. Miles' Nerve. It restores nervous energy—and through its invigorating influence upon the nervous system, the organs are strengthened. The heart action is better; digestion improved, the sluggish condition overcome, and healthy activity re-established.
"Dr. Miles' Nerve is worth its weight in gold to me. I did not know what ailed me. I had a good physician but got no relief. I could not eat, sleep, work, or enjoy life. I was nearly crazy. One day I picked up a paper and saw an advertisement of Dr. Miles' Nerve. I concluded to try it and let the doctor go, and I did so. After taking two bottles I could dress myself. Then I began taking Dr. Miles' Heart Cure and now I can work and enjoy life. I have told many the benefit I have received from these remedies and several of them have been cured by it since. I am fifty-nine years old and pretty good yet."
ANNA E. PALMER, Lewistown, Pa.
Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money."
